

INTRODUCTION

Electrical Warehouse is a leading supplier of electrical and all-related products to clients across South Africa and Africa. Our core focus is to provide continuous customer service to our customers across the continent.

With a strong supplier network of leading South African and International electrical and lighting brands, we are able to offer a wide range of quality products at affordable prices. Our retail and distribution centre in the South of Johannesburg allows us to stock a large quantity of electrical products immediately available to the end user as well as the middle man.

Our passion and commitment to quality products, professional advice and a hands-on approach has differentiated us from the rest; resulting in our steady

business growth with an expanding client base and a larger network of electrical product manufacturers in South Africa and around the world.

Not only do we stock and supply a vast range of electrical products, but we also pride ourselves on providing excellent after-sales service, support and reliability.

Environmental sustainability is of utmost importance to us which is why we also stock environmentally-friendly products ensuring we are positively adapting to the changing demands of the planet.

We are driven by customer satisfaction which is imbedded in our core values and we strive to stay committed to this promise every day.

WHAT WE DO

Electrical Warehouse is a supplier and distributor of a wide range of electrical products for all electrical-related jobs, big or small. Our clients include those looking for a once-off electrical tool, to larger industrial products.

Our staff are experts in their fields and offer our customers advice on finding the best, most trusted products to get the job done well, without breaking the budget.

Because we are committed to offering solutions, we are able to procure stock in a very short turn-around time to avoid unnecessary time delays.

We know that the quality of the products combined with the right advice can ensure the success of your electrical project, which is why we offer you the full package.
